EVENTS RECYCLING @ LLANWRTYD WELLS COMMUNITY TRANSPORT

- ❖ Are you running an event and need help with your waste?
- ❖ Do you want to recycle waste at your event but don't know where to start?
- ❖ Do you really want to do the right thing, but need help to get it right?
- ❖ Do you feel a responsibility to the local community and public, you want to recycle and stop sending waste to landfill?

**WE ARE HERE TO HELP, CALL US
NOW TO DISCUSS THE OPTIONS.**

WHY RECYCLE?

Public events often create a huge amount of waste. Country shows, street carnivals, music festivals, in fact any event when people come together produces a significant amount of waste in a variety of materials; these materials can be a valuable resource when recycled.

Encouraging recycling activity at events not only preserves natural resources and saves on landfill charges, but can also improve the public's opinion of the event organiser. It will promote a positive environmental image and present organisers as responsible and respectful event managers.

We currently use the five bin recycling system which has helped us to achieve excellent recycling results

over the past years. In spring 2012 we managed a recycling rate of 73.9% at the Royal Welsh Agricultural Society Spring Festival. That equates to only 27% of waste ending up in landfill.

If you would like us to help you achieve such a high recycling figure at your event, please call Laura now to discuss your requirements, on 01982 552727 or email us at office@lwct.org.uk.

Whatever your needs we can create a package exclusively for you, so why not give us a call.

Registered Office: C/o Andrew Jones & Co,
